

I run a small business, as does my husband. We have no need to send faxes to people. I get many faxes a week, many from eople/companies who will lie to me and claim "someone" in my office called and asked that they fax these unsolicited busniess ads to me. I do not want to receive them, even from people with whom I do business. If they want to send me a fax, they can get my written permission. Seems simple and easy. No more disputes. Please let this rule take effect on the 25th. Thank you.
